ALEX PETER ONOJA

FRONT-END WEB DEVELOPER

alexpeteronoja@gmail.com || GitHub || LinkedIn || Portfolio

SKILLS

Language Skill: HTML5, CSS3, JavaScript (ES6+)

Framework: React, Tailwind CSS, Bootstrap, jQuery

Tools & Platforms: Git, GitHub, Netlify, Vercel

APIs: REST APIs, Fetch, Axios

Others: Responsive Design, Version Control, JSON

PROJECT

Language Translator Web App

[Live Link] | [GitHub Repo]

- Developed a real-time language translation web app supporting multiple languages.
- Integrated MyMemory API to dynamically fetch and display translations based on user input.
- Implemented responsive UI using Tailwind CSS.
- Managed codebase with Git, following clean commit practices and version control.

Country Page App

[Live Link] | [GitHub Repo]

- Developed a responsive web application that ranks countries by key metrics such as population and area.
- Implemented sortable tables and dynamic filters for region, UN membership, and independence status.
- Designed detailed country profile pages with relevant statistics and data visualization.

Simple Coffee Listing

[[Live Link]] | [[GitHub Repo]]

- Built a responsive web app that fetches and displays various coffee types using a public API.
- Showcased API integration and asynchronous JavaScript for dynamic data rendering.
- Designed a clean and user-friendly interface for an intuitive browsing experience.

EDUCATION

Bachelor of Engineering in Electrical/Electronic Engineering   2018 - 2025
Joseph Sarwuan Tarka University, Makurdi.

HOBBIES AND INTEREST

To Learning additional developer skills and Building More Projects.
